

SIMPLERIX performance*goals

Simply Start Performance & Goals in SAP SuccessFactors

SIMPLERIX performance*goals enables a fast and structured entry into SAP SuccessFactors Performance & Goals. Proven standard templates for typical use cases such as performance reviews, goal setting, and feedback discussions for new employees significantly reduce conceptual design effort. Instead of developing processes and forms from scratch, companies benefit from established best practices and DACH-specific compliance expertise.

SIMPLERIX performance*goals offers you:

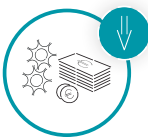

- > **Ready-to-use templates:** Get started faster with preconfigured templates for typical Performance & Goals processes
- > **Reduced project effort:** Avoid repetitive conceptual work and focus on your individual requirements
- > **Proven best-practice foundation:** Benefit from tested configurations instead of implementing from a blank slate
- > **DACH-specific expertise:** Use templates that take regional requirements and best practices into account
- > **Semi-annual template updates:** As part of the subscription, you receive new templates every six months, aligned with SAP release cycles

Mit SIMPLERIX performance*goals you gain:

Significantly faster implementation of Performance & Goals

Reduced project effort and lower design costs

Flexibility to address individual requirements

New templates every six months through the subscription mode
