## Simply Manage Your Organization in SAP SuccessFactors

Do you already use Position Management in SuccessFactors Employee Central or are you about to launch it? If so, SIMPLERIX org\*management is the perfect app for you!

With SIMPLERIX org\*management the time required for master data handling is significantly reduced thanks to the efficient management of departments and positions.

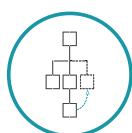

In addition to a clear and intuitive interface, the app offers systematic inheritance logic which simplifies the maintenance of your organisation sustainably. The advantages of modern cloud technology are thereby enhanced with the core competencies of classic SAP HCM – for simple and optimised master data handling.

### SIMPLERIX org\*management offers:

- > **Clear visualisation** of departments, positions and employees
- > **Time savings** thanks to simple reorganisation using drag and drop
- > **Clarity and structure** via inheritance of cost centres to departments, positions and subsequently employees (SAP HCM inheritance logic)
- > **Flexibility** through the use of further attributes for inheritance, e.g., divisions and business units
- > **Data security** since your data remain exclusively in your SAP SuccessFactors instance, thus avoiding separate data storage
- > **Simple access** by calling up the app directly from SAP SuccessFactors as well as checking SuccessFactors permission roles
- > **Seamless and simple operation** based on a user-friendly web interface in the familiar SuccessFactors environment (SAPUI5)

### SIMPLERIX org\*management guarantees:

Simplification of ongoing structure maintenance

Significant time savings

Avoidance of errors

Functionality that saves costs and makes work easier
